

# MYPSYCHTRACK: THE APPLICATION TO TRACK AND MANAGE PRACTICUM EXPERIENCES

**NEW!**

## MyPsychTrack

### TIME TRACKING MADE SIMPLE

MyPsychTrack is a new and powerful tool that makes it easy for doctoral students in psychology to track their practicum activities. MyPsychTrack gives supervisors a simple way to monitor students' progress, and helps directors of clinical training gain deeper insights into the larger doctoral pool for easier and more accurate record-keeping and reporting.

Your students can use the application at no cost to track and manage practicum experiences on-the-go, either online or from a mobile application. And MyPsychTrack is the only time-tracking solution that is fully integrated with AAPI Online for faster, more accurate application completion.

### EASY, ON-THE-GO TRACKING AND MANAGEMENT OF PRACTICUM EXPERIENCES

Practicum experience is about learning, not about juggling spreadsheets. And yet, many doctoral candidates in psychology spend an inordinate amount of time doing just that.

MyPsychTrack provides an easy-to-use mobile interface for tracking and managing practicum experiences—across multiple activity types, for a range of clients and clinical settings, and over the course of several years. MyPsychTrack makes it easy for candidates to build a portfolio of verified clinical experiences when applying for internships, licenses, or other further education.

With MyPsychTrack your students can:

- Track clinical activity and export data directly to AAPI Online
- Manage data by activity type, client, assessment, and facility
- View activities in calendar format and manage recurring activities
- Submit hours directly to their supervisors for verification
- Understand how and where they're spending their time

### MONITOR THE PROGRESS OF YOUR STUDENTS

MyPsychTrack takes the complexity out of monitoring practicum experiences—allowing you to focus on how well your students are learning. With MyPsychTrack, you can monitor student progress from an easy-to-use interface. You can view activities by student, by cohort, or by program for a holistic understanding of performance. Powerful charting functionality means you can access and manipulate critical performance metrics without having to export your data into cumbersome spreadsheets.

### Why MyPsychTrack?

- ✓ Better practicum tracking and management
- ✓ Better student and program monitoring
- ✓ Real-time analysis and reporting
- ✓ Direct integration with AAPI Online

With MyPsychTrack Directors of Clinical Training can:

- Search easily for students by individual record, cohort, or program
- Access data about student activities to ensure program compliance
- Compare the performance of students, student cohorts, or programs to understand which sites and activities have the greatest impact

## EVIDENCE-BASED PROGRAM MANAGEMENT

With MyPsychTrack, you have access to the data you need to understand—and improve—your clinical offerings. Advanced reporting capabilities in MyPsychTrack allow you to analyze the clinical experiences of your current class by activity, client, setting, and assessment type, giving you insight into whether your clinical offerings advance your program goals. MyPsychTrack also lets you respond more confidently to accreditors and other academic reporting requests.

With MyPsychTrack Directors of Clinical Training can:

- Assess the range of clinical experiences offered by your program
- Assure that program goals and objectives are being met
- Make real-time decisions about program content
- Answer requests for data more confidently

## DIRECT INTEGRATION WITH AAPI ONLINE

In the fiercely competitive race to apply for internships, speed and accuracy matter. MyPsychTrack is the only clinical time-tracking solution that supports direct export of student practicum hours into AAPI Online. That integration saves your students countless hours of manual data entry when they apply for predoctoral internship programs, improving accuracy as well as reducing time spent on tedious tasks. With MyPsychTrack, your students can spend their time focusing on those parts of the application process that will make them stand out as superb candidates.

## ABOUT LIAISON INTERNATIONAL

Liaison helps higher education institutions identify, recruit, and enroll best-fit students with improved outreach, application, and enrollment processes. More than 4,500 programs rely on our admissions management and marketing automation software and services to reach prospective students, streamline administrative tasks, and create exceptional experiences for applicants across the full enrollment cycle—from first interest to first day on campus.

## ABOUT APPIC

The Association of Psychology Postdoctoral and Internship Centers (APPIC) is committed to enhancing internship and postdoctoral training in professional psychology. APPIC offers the AAPI Online applicant portal, for use by students who are applying to psychology predoctoral internship programs that participate in the APPIC Match.
